I am dedicating this comic book to the three genius scientists Albert Einstein, Acharya Jagadish Chandra Bose and Sir Chandrasekhara Venkata Raman.

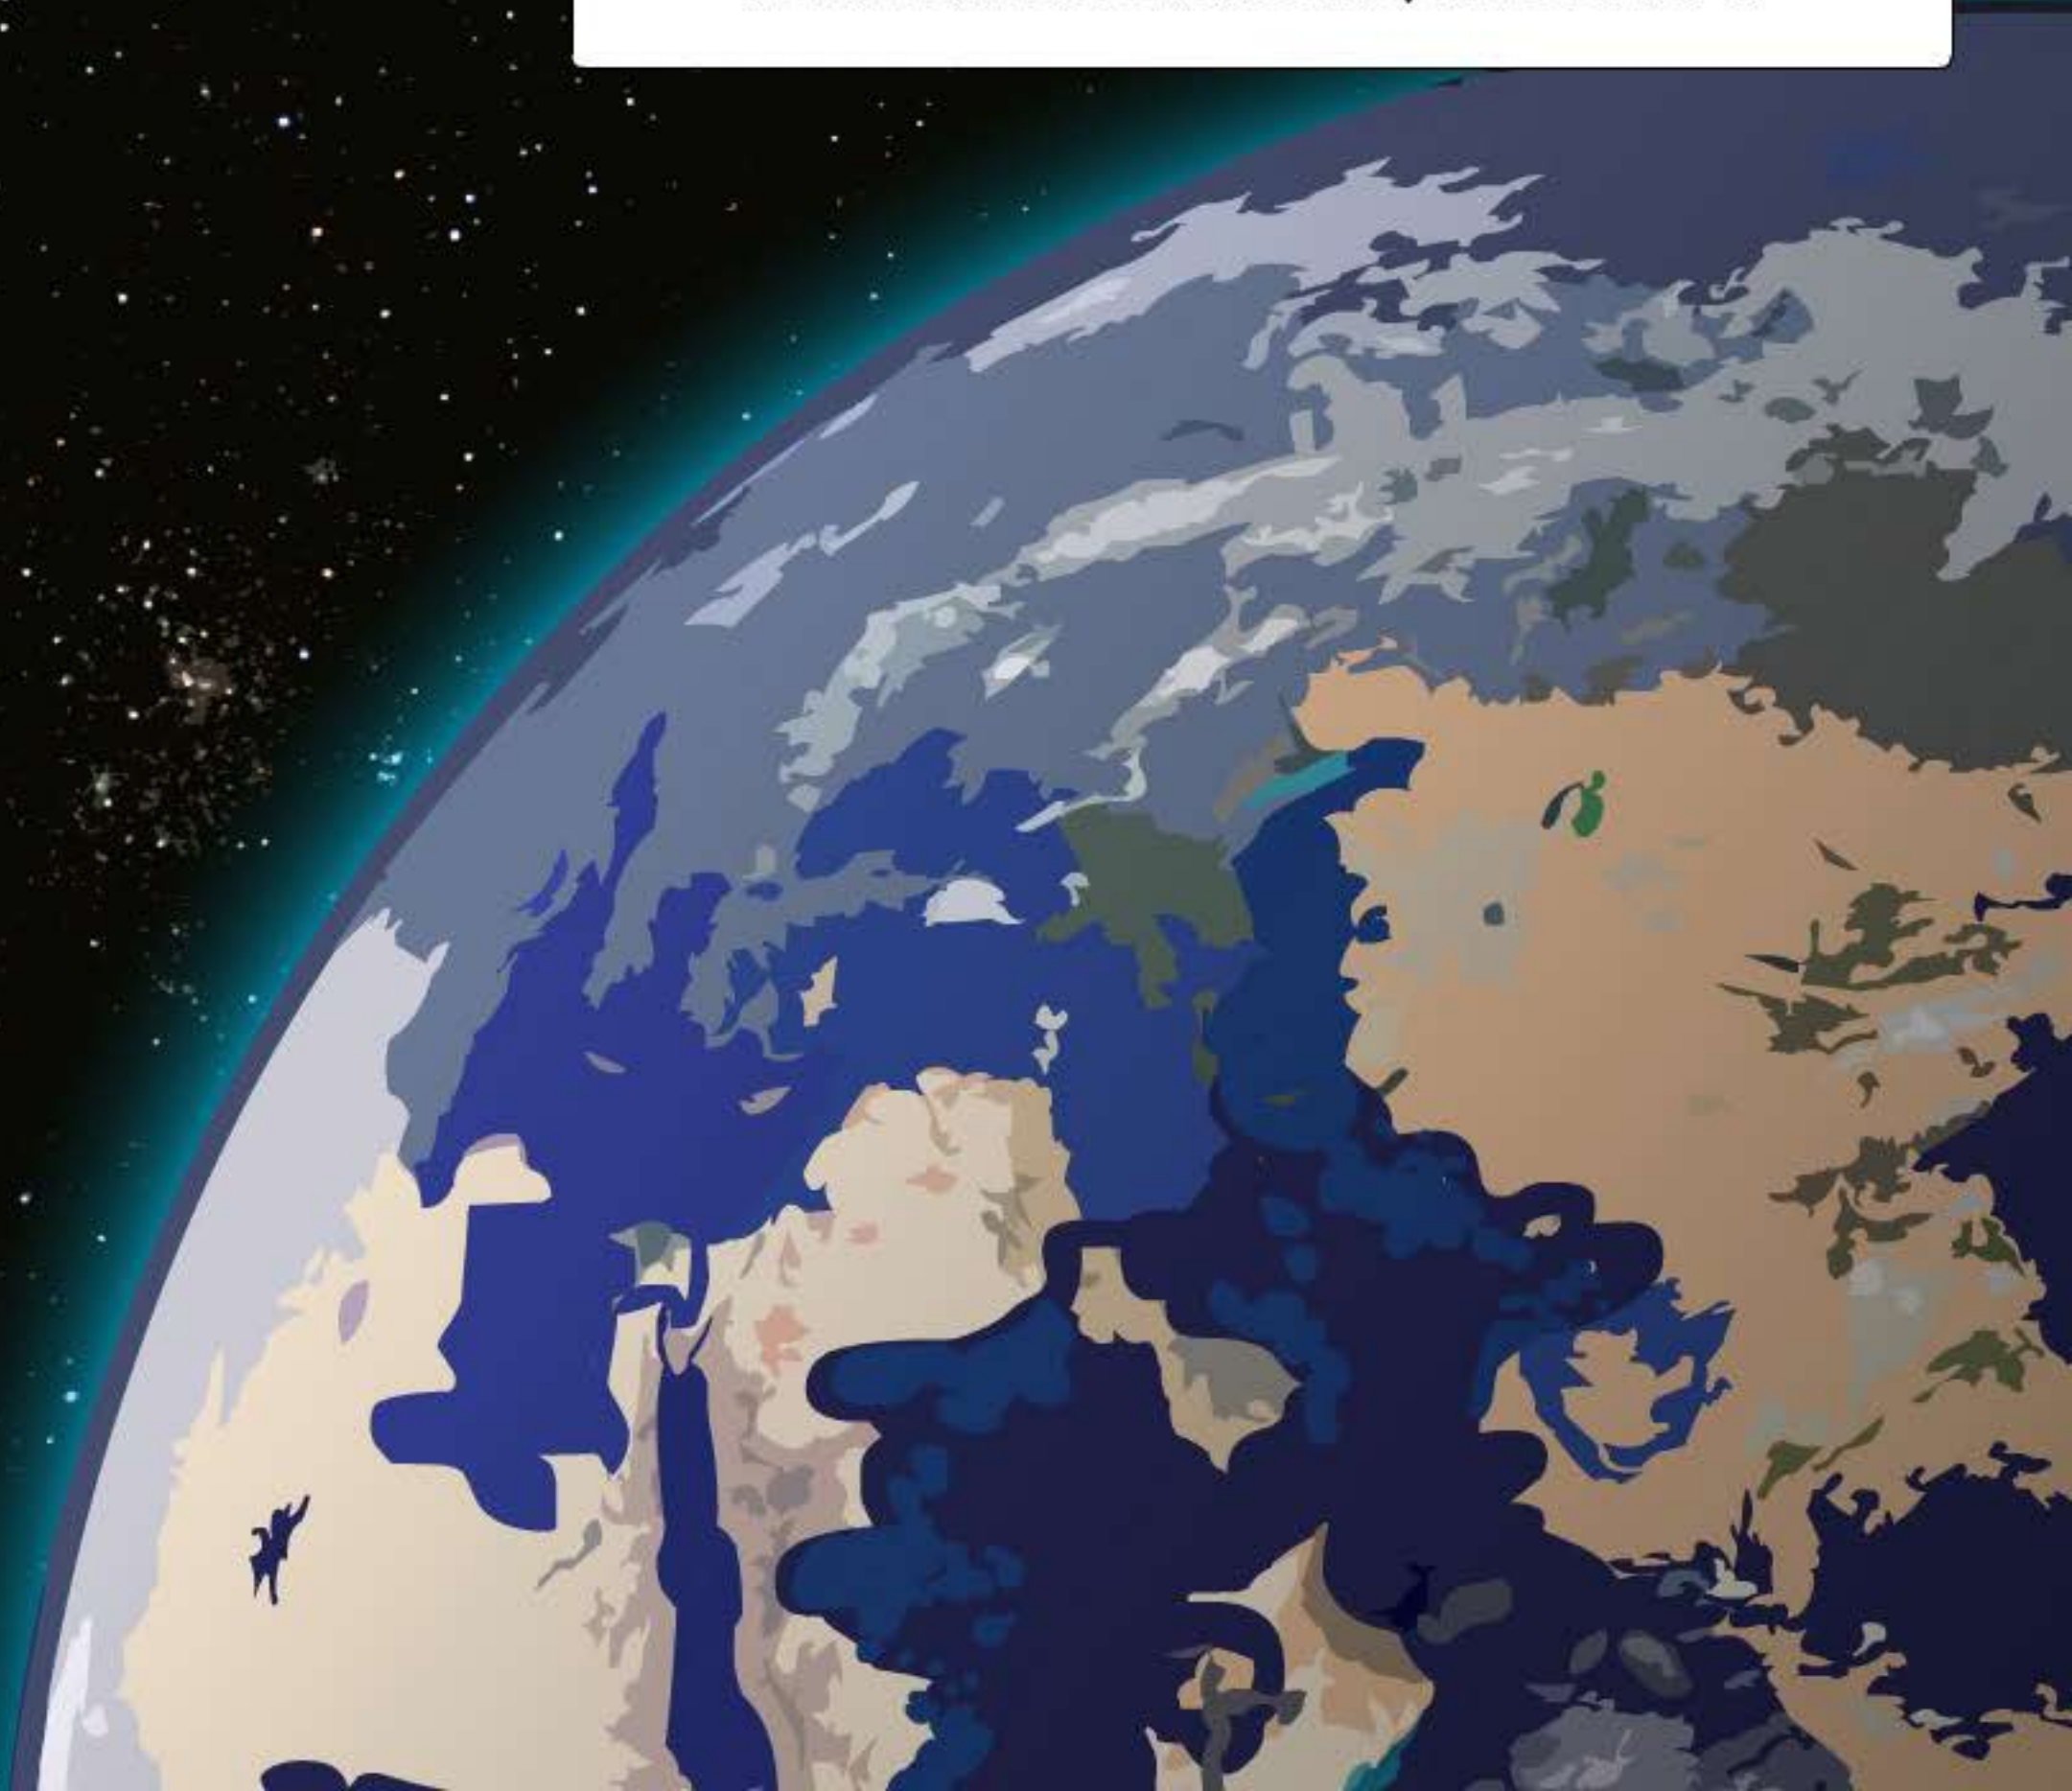

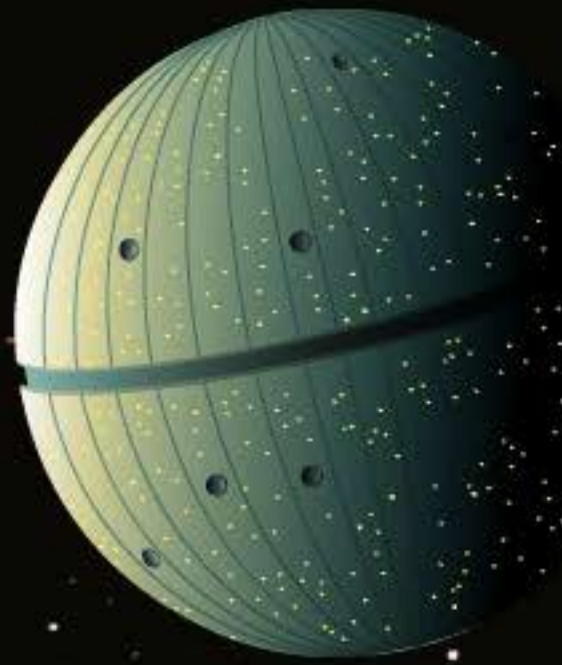

Albert Einstein who invented the enormous theory " $E = MC^2$ " and developed the "Theory of Relativity". Acharya Jagadish Chandra Bose who pioneered the investigation of "Radio and Microwave optics" and Sir C. V. Raman who is known for his ground-breaking work in the field of "Light scattering".

This e-book is not only for kids but also for everyone. Though AURO is a fictitious super hero but you will get lots of information about Interstellar and characteristic of Time.

I hope my creation will give you lots of enjoyment and knowledge.
